Title: Social media

The social media is change the way we connect it make is easier, we can communication with erybody from eny place when we want that.

but the social media is not god all the time In fact, it's kell our time when we use it with out ordering.

Ther is two sides the social media

bad side and good side

The good side it make the social easy the bad saied ther is too mach to see in the social media that is make we cant stop use the phone
