Topic: Eating at restaurants with your family is a good way to build family ties

Original Text:

Title: Eating at a restaurants with your family is a good way to build family ties

going out with your family and spending time together will build a really good relationship between each other for example when you go out with your family to a restaurant or to a playground you will spend a lot of time with them and talk with them about your goals, issues and achievements and you can spend time as a family by playing and saying jokes and enjoying your time with each other.
