Topic: Talk about teaching method

Original Text:

Title: Methods of teaching language

There are many methods of language teaching. The teacher chooses the method according to his student level in language, the number of students, the size of class and sometimes according to the school. Direct method is the most useful method in last years. and the students feel interested with this method. in this method there is no use to the mother tongue, this point makes students feel they really learn the language.
