**Original Text:**

**Title:** Social media

Social media changed the world in different ways that we can still today

the History of the social media

faceBook was discovered in 2004

2006 discovered the twitter

Social media begins as people from all over the world use it

in 2022 social media become more difficult to make control in it

Social media in the centuries its different in example the people in this centuries use the social media less than other centuries effects of social media today social media effects in two ways first one in positive ways and negative ways Because some people use social media in bad ways.

social is very popular almost people in the world use it is one of the most important contact between people in different centuries and the some centuries also one of the Best ways in teaching social media it's changing from first history of it until now

social media help a lot of people in their works. their office in their studies it make the life more easy than Before

social media is still important and it will continue for whole life.
