**Topic:** What do you think of climate change and how can we deal with it?

**Original Text:**

**Title:** Climate Change

The world today becomes more modern but the climate changes in the world that can not suggest it climate changes today is quick and sudden and its effects in negative way in humans life. A thousands of people die and lost their souls that climate changes.

the whole world is thinking about disadvantage of climate change. In Libya, the storm causes many pains of that country. Danial storm is the worst thing happens in our country that it cause dealeate of homes and killed a number of people, actually its a big number of people are died.
